Meet Morrell Group

Driven by a passion for innovative technology and conquering challenges, we develop solutions that keep our customers moving toward the future. From concept to completion, we provide exceptional customer service deeply rooted in our Commitment to Excellence. Our goal is to continue to grow our business with our customers and trusted vendor partners with the same quality and integrity we have had since 1976. *We keep things moving.*

PLAN

DESIGN

E**Engineering Partner**

Morrell Group functions as your partner, an extension of your engineering team. Rather than forcing you to adopt our business practices, we adopt to yours—seamlessly.

- Factory Trained Service Technicians
- Dedicated Product Management
- Maximum Stocking Levels
- Integrated Systems
- Application Engineering
- Custom Products & Solutions
- 3D Modeling & FEA Analysis
- Advanced Product Training
- Product & Machine Expertise
- Research & Development
- Product Launch Support
- Safety Reviews
- Prototyping

S**Systems Integrator**

The innovative solutions we engineer support both new and old systems. Employing cutting edge technology, we optimize your machines, fine-tuning them for efficiency, reliability, and longevity.

- Service Technicians
- Application Assistance
- Committed Inventory Program
- Configured Assemblies
- Product Sizing & Selection
- Integrated Products
- Concept Engineering
- Training

V**Value-Added Distributor**

More than a mere supplier, Morrell Group provides attractive solutions built on a foundation of quality components and competitive pricing.

- 24/7 Support
- Customer Service
- Inventory
- Product Kitting
- Product Support

Meet Morrell Group

Morrell Inc. began as a trusted resource for premier components, and over the last four decades evolved into the Morrell Group, an Engineering Partner, Systems Integrator and Value-Added Distributor (ESV).

As the world's first ESV, we provide our customers with highly engineered solutions for motion control tasks. By leveraging our group members' diverse industry experience and product knowledge, we engineer technically superior solutions with sustainable value.

Where

Intelligence

Drives

Innovation

morrell

A trusted resource for the design, build, installation, and maintenance of electrical, hydraulic, pneumatic and lubrication systems built solidly on these components.

- Priority access to industry leading components
- Unparalleled experience in component application
- Industry leading system and subsystem development

stegner
controls

A world-class provider of solutions for electrical and motion control systems – from simple panel builds to the full integration of complex, turnkey systems.

- Tremendous experience in more than 80 critical capabilities
- Complete life-cycle support - niche to total solutions

stegner
aerospace

A focused business unit to handle the automation of tools used in the manufacturing and assembly of commercial and military aircraft, rockets and satellites.

- Simplify flexible automated tooling
- Value-added concept engineering processes

morrell
defense

A focused business unit structured to provide the breadth and depth of Morrell Group's design, engineering, prototyping, manufacturing, sourcing and procurement capabilities on military vehicles.

- System integration solutions
- Subsystem efficiency solutions
- Space and weight reduction
- COTS Technical Readiness for Military Levels 1-5 and 6-10

Innovation that

Keeps You Moving

Morrell Group is dedicated to and equipped for keeping your systems moving throughout the Industrial 4.0 revolution. We align the needs of your organization to engineer flexible, fully-connected solutions so you can proactively adapt to the market's ever-shifting demands.

NOW

- Linear, sequential operations
- Largely manually controlled production
- Limited scope of data collected

NEXT

- Union of the digital & physical worlds
- Real-time data visualizations
- Digital supply networks drive production & distribution

BEYOND

- Ongoing evolution of factory modernization
- Production carried out with minimal intervention
- Seamless networking across plant operations, field devices, controls & supply chain networks

Bottling Lines

Mechanical &

Pneumatic Products

Morrell Group provides unparalleled performance in motion control applications dealing with high speed, accuracy, position synchronization, and high axis count.

- ☞ Actuators
- ☞ Air Preparation
- ☞ Ball & Roller Rail Systems
- ☞ Couplings
- ☞ Gear Boxes
- ☞ Electric Cylinders
- ☞ Linear Motion Systems
- ☞ Motion Controllers
- ☞ Pneumatic Systems
- ☞ Press Systems
- ☞ Rack & Pinion
- ☞ Screw Jacks

Electronics, Drives & Controls Products

Morrell Group employs a flexible design concept for its controls systems. Designs range from small, compact, all-in-one servo-drive systems to large modular systems to panel free technology. These products provide exceptional diagnostic capabilities, including Industry 4.0 solutions. Our safety product offering is the broadest in the industry, and it includes free intuitive software.

Hydraulic Products

More than just providing fluid power systems, Morrell Group builds solutions, too. Our in-house engineering and manufacturing teams can meet the needs that arise from any application. Our vendor partners, committed to product development and innovation, support us on the leading edge of hybrid systems.

Process &

Lubrication Products

A proper fluid power system reduces energy usage, operating costs, and maintenance hours while improving a system's operational lifetime. Morrell Group uses best-in-class components to provide flexible and reliable solutions. Our compact yet robust systems enable both fast action and ultimate control.

- ☞ Assembly Lubrication
- ☞ Control Valves
- ☞ Filtration
- ☞ Gas & Emissions Analyzers
- ☞ Process Measurement Technology
- ☞ Process Pumps
- ☞ Single-Line Lubrication Systems

Integrated Solutions

Morrell Group's complete suite of services includes concept development, design, engineering, and build and test capabilities from a single source. To optimize solutions for your applications, we draw upon our experience in industry-leading control platforms, including Rexroth, Allen Bradley and Siemens. Quality is #1 at Morrell Group! That is why we are an AS9100, IS9001 and UL508A approved supplier.
